

## Quick reference (“Destination” screen)

The “Destination” screen allows you to search for a destination. To display the “Destination” screen, push the “**DEST**” button.

### 1 “Address”

A house number and the street address can be input by using the input keys.

..... 53

### 2 “Point of Interest”

Select one of the many Points of Interest that have already been stored in the system’s database. .... 57

### 3 “Previous Destinations”

A destination can be selected from any of the last 100 previously set destinations and from the previous starting point.

..... 63

### 4 “Del. Dest.”

Set destinations can be deleted. .... 69

### 5 “?”

Function help for the “Destination” screen can be viewed on this screen. .... 32

### 6 “Address Book”

The desired location can be selected from a registered entry in the “Address book”. (To register address book entries, see “(a) Registering address book entries” on page 107.) .... 64

### 7 “Emergency”

One of the four categories of emergency service points that are already stored in the system’s database can be selected.

..... 64

**8 “Intersection & Freeway”**

The names of two intersecting streets or a freeway (interstate) entrance or exit can be entered. This is helpful if only the general vicinity, not the specific address, is known. .... 65

**9 “Map”**

A destination can be selected simply by touching the location on the displayed map. .... 68

**10 “Coordinates”**

A destination can be set using latitudes and longitudes as coordinates. .... 69

**11 Preset destination touch screen buttons**

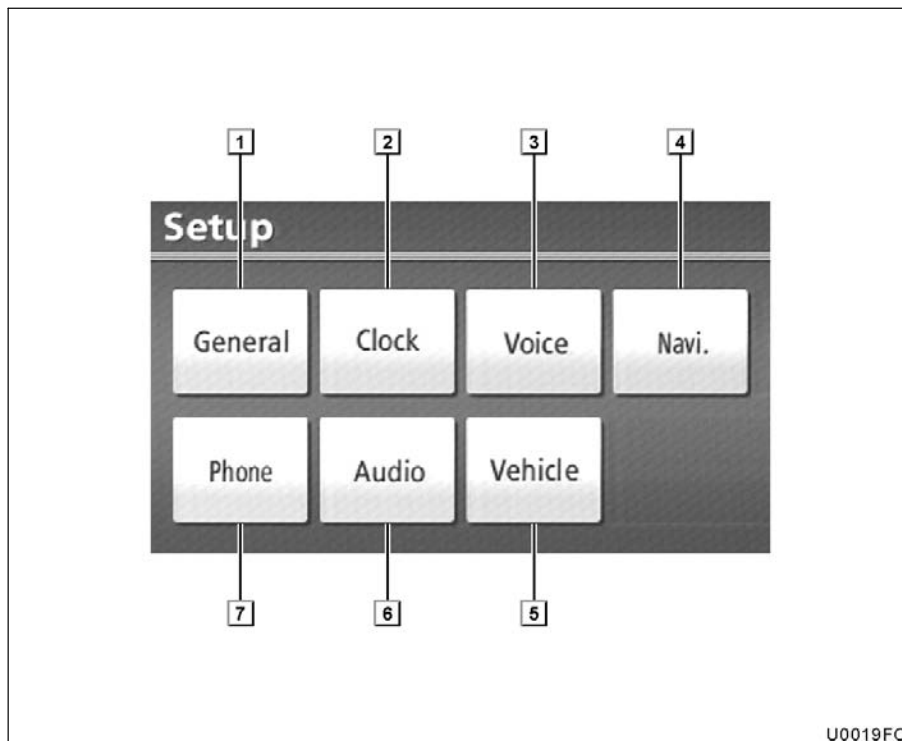

One of 5 preset destination points can be selected by touching the screen directly. If a preset destination point has not been registered, a message will be displayed and the setting screen will automatically appear. To use this function, it is necessary to set the “preset destination”. (To register a “Preset Destination”, see “(a) Registering preset destinations” on page 104.) .... 52

**12 “Go Home”**

A personal home address can be selected without entering the address each time. If “Home” has not been registered, a message will be displayed and the setting screen will automatically appear. To use this function, it is necessary to set a “Home” address. (To register “Home”, see “(a) Registering home” on page 101.) .... 52

## Quick reference (“Setup” screen)

The items shown on the “Setup” screen can be set. To display the “Setup” screen, push the “**SETUP**” button.

U0019FC
